## With SuperNova's 'Connect & View' ...

### Low vision students can:

- Magnify and explore the interactive whiteboard in comfort from their own laptop or tablet
- Apply a color scheme to suit the information and their sight
- View the magnified interactive whiteboard & their app, side by side
- Take a snapshot for further exploration at their own pace or for a later date
- Take a snapshot to read at home - quicker and more accurate than notetaking

### Staff and educators can be confident, thanks to:

- Simple set-up at the start of the class with no disruption to other students
- Password protection; ensuring documents are always safe & secure
- Compatibility with ALL interactive whiteboards

## Also 'Connect & View'

via a document camera or video magnifier to view class handouts, maps & other paper documents
