RECOVERY AND RESILIENCE IN THE ERA OF COVID-19

The Interconnectedness of Agriculture,
Clean Energy, Public Health, Supply Chain,
and Emergency Management

July 23, 2020
1:00 p.m. to 2:30 p.m.
Virtual Session via Zoom

**REGISTRATION
IS FREE**

In normal days, it is easy to ignore the complicated supply chains that bring food to our tables, how our public health systems function and the plans and preparations for emergency management.

On July 23rd, you can participate in a discussion with experts in the field and people on the front-line of agriculture, public health, supply chains and, clean energy, and emergency management. They'll give their views and outlooks but just as important you'll have the chance to provide your perspective, concerns and questions to create a framework for solving these complicated challenges.

Session Moderator: Curry
Mayer, Director of Emergency
Management,
City of Bellevue

Session Objectives:

- Providing opportunities for attendees to work together for community benefit.
- Allowing the audience to bring their concerns and ideas for possible solutions.
- Challenges, Issues, and Impacts from Industry experts.
- Looking at lessons learned and building continuity and resiliency in the midst of an ongoing crisis.

Learn how the agriculture industry has been affected by the Covid-19 pandemic, and how the supply chains for agriculture and health care are changing and evolving.

Discuss what needs to be done now and for the future to ensure these vital components of our lives and economy can thrive in the future.

Join our conversations on July 23, 2020 as we drive breakout sessions via Zoom on key issues.

The information coming out of the discussions will be used for follow-up sessions that are scheduled for August 6, 13th and 20th on areas of Public Health, Supply Chain, Clean Energy, and Emergency Management.

Presented by the Centers of Excellence for:
