

## CTCLDA Leadership Academy

The CTCLDA recognizes the need for strong leaders in the Washington CTC system. The work of creating educational opportunities for students across demographics is an extremely difficult task. It calls for leaders that aspire to work for the good of all the students and communities that we serve.

With this in mind, the CTC Leadership Development Association would like to offer the opportunity for our members to join in our first Leadership Academy. This is a program that was developed to assist Washington State CTC system employees to advance and strengthen their leadership knowledge and skills. This will be accomplished through interactive workshops to analyze personal, organizational, and system goals or initiatives.

The Leadership Academy will be a cohort based experience that will take place over three sessions. Each session will occur at a different college campus once a quarter prior to the CTCLDA conferences. The program will explore the fundamentals of leadership and its challenges while having a focus on diversity, equity, and inclusion. After completing all three sessions of the program, participants will receive a Certificate of Recognition.
