Message

Satisfactory academic progress (SAP) is used to define successful completion of coursework to maintain eligibility for student financial aid. Federal regulations require this institution to establish, publish and apply standards to monitor your progress toward completion of your certificate or degree program. If you fail to meet these standards, you will be placed on financial aid warning or suspension. Completion toward your program is measured by GPA, time frame to completion, and percentage of courses completed you attempt.

Meet Need/Cost

Conditional: Indicates an award made without regard to budget or need if federal aid has not been awarded at the time of this award. However, if federal aid precedes this award, conditional awards behave like special need/cost awards.

Cost Only: The awarded amount affects only the unmet COA balance.

Need Only: The awarded amount affects only the unmet need balance.

No Effect: The awarded amount does not affect the unmet need or unmet COA balances. Ensure that you understand the results before using this option.

Special Need/Cost: The Packaging process first determines whether unmet need exists. The system always reduces unmet need first. Then the process compares the remaining unmet COA against the student's EFC and awards up to the lesser of the two. This is the preferred attribute for unsubsidized Stafford and PLUS loans. Special need/cost aid reduces both the unmet need and unmet COA balances.

Straight Need/Cost: The awarded amount affects both the unmet need and unmet COA balances
