Co-requisite Mathematics Workshop

November 7th-8th, 2018

(7th: 9:30 am - 5:00 pm, 8th: 8:00 am - 2:30 pm)

Heathman Lodge Vancouver, WA

Hosted by WA Math Pathways to Completion:

Facilitated by:

Dana Center
Mathematics
PATHWAYS

This workshop supports college and university teams who are beginning and/or deepening work to develop and implement accelerated math pathways aligned with the recommendations from the Washington Math Pathways Task Force for students needing developmental education.

Each institution should consider bringing a team of 3-5 people including:

- Mathematics faculty members who teach developmental mathematics, statistics, college algebra, and/or quantitative reasoning courses
- Academic and students services administrators, advisors and institutional researchers

Through this interactive workshop, teams will explore key steps in implementing co-requisite or other accelerated developmental courses, create short-term action plans and learn about free resources available to support institutional work. The meeting site costs (lodging and meals) are covered; your only costs are travel to and from the event and lodging the night before if you need to arrive early (see registration form for details). Please contact [Bill Moore](#) for more information.

Space is Limited: Register by September 28th
