

THE PATH TO SUCCESSFUL CO-REQUISITE IMPLEMENTATION IS FULL OF CHOICES. WE CAN HELP YOU NAVIGATE.

**Implementing, Improving, and Scaling
Co-Requisite Mathematics Courses**

May 21-22, 2019 | Aurora, Colorado

Bring a team to this national co-requisite design workshop and create a campus-wide action plan for implementation. You will engage with research, learn best practices, and dig in to those course design factors that best fit **your** campus, department, and students.

Sessions focus on structures, content, pedagogy, and psychosocial factors. This workshop is not tied to any specific curriculum.

Discounts are available for teams of three or more.
