

## Gale Package – Sign Up Now!

All public, academic, and special libraries that wish to obtain [the new Statewide Database Licensing \(SDL\) package from Gale Cengage](#) are requested to fill out, sign, and return the new SDL [Intent to Participate Form for Libraries](#). A link to first year costs is also [available](#). New participants are welcome!

K-12 libraries should contact [their respective ESD](#) for pricing information and to sign up for the Gale package.

In addition to submitting the SDL Intent to Participate Form, libraries should fill out and return Gale's [New Library Activation Request for Washington Libraries](#). The information provided on this form goes directly to Gale and allows them to set up library accounts for activation.

**To insure access by July 1 – please return the [Intent to Participate](#) and [Gale Activation Form](#) ASAP (before June 30).** If any library needs to pay its invoice prior to July 1<sup>st</sup>, please let us know immediately, so we can request expedited invoicing. Otherwise invoices will be issued by Gale in July.

By signing the Intent to Participate Form, an organization is agreeing to abide by the terms of the [Gale Product and Services License Agreement](#), which has been substantially modified for the contract with the State of Washington. Please carefully read and understand these important terms of use, and make certain that all library staff are aware of them.

Private academic libraries and special libraries are requested to also provide current user count data. Please fill out and return the appropriate forms, located on the [signup page](#).

Questions? Need more information? Please contact SDL Project Manager, [Will Stuvenga](#), or one of the [Gale representatives](#).

Apologies for any duplication, as this message is being posted to multiple venues. Note: Digital signatures may only function in Adobe Acrobat Reader. The digital signature function may not work if the PDF file is loaded directly in a browser.
