Dear «FIRST»,

Congratulations! Because of your academic performance and enrollment in “«PRG»”, you qualify for participation in our Early Action Plan. The Early Action Plan allows you to declare interest in attending our Bachelor of Applied Science in Behavioral Health (BASBH) and obligates LWTech to reserve a spot for you so long as you meet the conditions below.

To join the Early Action Plan, you must:

- Return the enclosed Early Action Plan Acceptance form to the Enrollment Services Office by March 31, 2020. We will send you a letter confirming your reserved spot in the BASBH.
- Maintain a cumulative GPA of 2.5
- Remain in good standing as a student (no student conduct violations)

To be fully admitted to the Bachelor program, you must:

- Complete your AAS and Admission Criteria specified in the Catalog by Spring quarter in the year you plan to apply for the BAS
- Submit a completed BAS application for admission by the priority deadline in Spring
- Pay the \$50 BAS application fee

You are eligible to apply for funding now through the Washington State Opportunity Scholarship if you declare this bachelor’s degree as your academic goal. Learn more here:
www.waopportunityscholarship.org.

In your last quarter of enrollment in “«PRG»”, our admission staff will work with you to complete final paperwork required for admission to the Bachelor of Applied Science in Behavioral Health program.

This commitment is not binding on your part, so if your circumstances change, you only need to notify the college and end your participation. Students supported by any of the following programs should contact their advisor **prior** to submitting the Early Action Plan Acceptance Form: Opportunity Grant, WorkFirst, Worker Retraining, BFET, or TRiO.

Yours,

Kris Lau
Associate Professor,
Behavioral Health

Aparna Sen
Dean of Instruction,
Health Sciences
