

OCR UPDATE

- NWAC is still waiting to hear OCR's response to NWAC's response about a complaint that focused on women's basketball teams not playing in prime time.
- NWAC requested OCR to provide information as to who filed the complaint. OCR denied that request.
- Title IX survey to review and edit.
- Present at the Winter Conference.
- EB recommends or makes a statement regarding double headers (soccer and basketball)

TUITION WAIVER UPDATE

- NWAC held multiple sessions with ADs regarding tuition waiver information.
- There were three concerns that ADs needed to have addressed:
 - Coding of the waivers
 - Would there be flexibility given to schools too when awarding LOI's to individual students?
 - Can scholarship money be used to cover the remaining fees specific to building fees and student activity fees?
- Coding of waivers is not an NWAC issue. It is an issue between the institutions and the SBCTC.
- After weeks of waiting to hear from the SBCTC, on 11/20/24, they provided information regarding flexibility schools will have when awarding LOIs. See the attachment.
- Need direction on whether scholarship money may be used to cover the remaining fees specific to the building and student activities fees.
